## Measuring Length and Height

To measure this pencil, make sure you start at zero. The pencil is 10 centimetres (cm) long

Not to scale

You can also measure larger objects in metres (m).  
100 centimetres = 1 metre

I am 1 metre and 10 cm tall.

## Comparing Length

8 cm

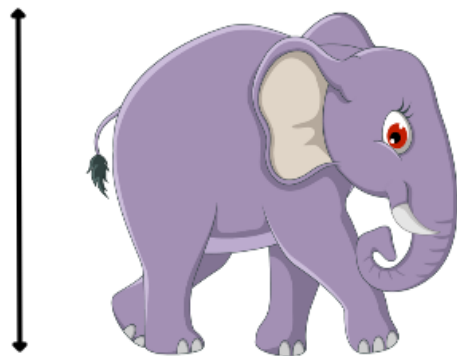

10cm

The pencil is **shorter** than the paintbrush

$$8 \text{ cm} < 10 \text{ cm}$$

## Comparing Height

3 metres

1 metre

The elephant is **taller** than the lion.

$$3 \text{ metres} > 1 \text{ metre}$$

## Ordering Length

The vehicles have been ordered from longest to shortest.

Longest

Shortest

The bus is the **longest**.  
The bike is the **shortest**.  
The bus is **longer** than the car.
